Bubbles of LOVE

Singing songs is so much fun, right? Especially when you can sing together with your mother, father, brothers, sisters, or friends. It will be much more fun if there's a song for anything that you are doing, like waking up in the morning, playing around the house, or even going to bed at night. All these songs are on this CD. There is even a song for when you are going down the stairs. It goes like this:

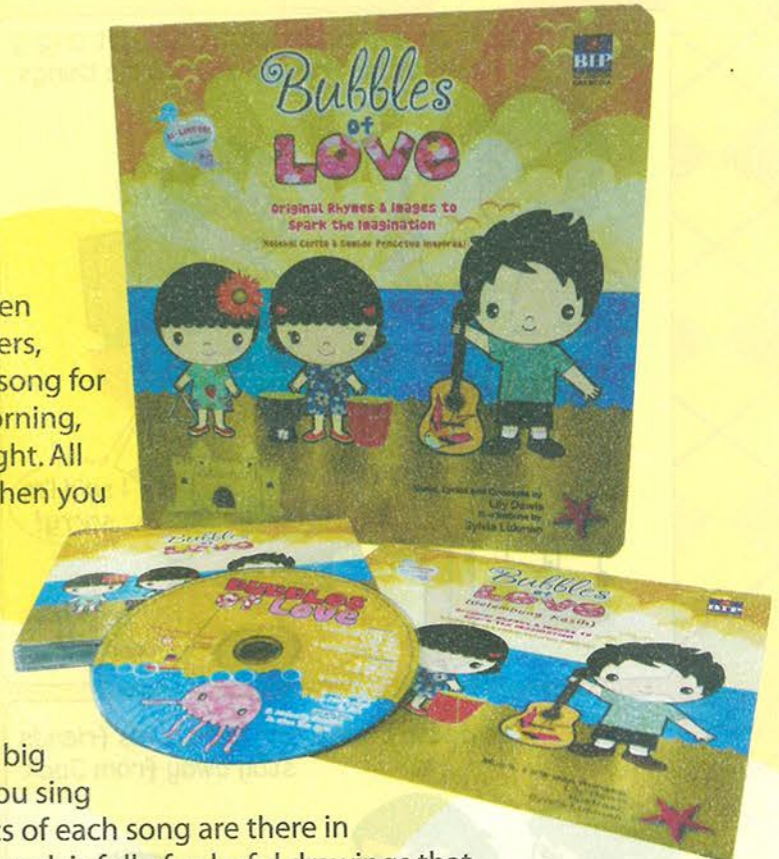

AM
GOING
DOWN
DOWN
DOWN
THE STAIRS
Here we go,
hooray, hooray, hooray!

Sound so great fun, right? What's more, the CD comes with a colorful big book to help you sing along. The lyrics of each song are there in the book. The book is full of colorful drawings that match the songs. The songs are mostly in English. But there are some songs in Bahasa Indonesia, too. Don't worry if you don't understand the English songs. There is this little, bilingual book to help you with that.

So, what are you waiting for? Get the CD and the book and ask your family to sing together. Oh, and here's another plus

point: Instructions in the colorful book will help your parents to make the best of the songs. Have fun singing! **Melfi**

QUESTION:
What's the title of the CD?
